

# Anshul Sharma

## Software Developer

### SUMMARY

Full stack software developer with expertise in front-end and back-end development, experienced in working cross-functional teams.

### EXPERIENCE

#### Software Developer-1 | June 2023 – Present | SimplrOps

- Spearheaded the development of responsive and accessible user interfaces, aligning seamlessly with design specifications and user requirements.
- Utilized advanced tools, including lazy loading, code splitting, and caching, to optimize performance and enhance the overall user experience.
- Implemented and advocated for Agile methodologies, orchestrating stand-up meetings and meticulous sprint planning sessions to ensure the streamlined and iterative delivery of high-quality software solutions.
- Actively participated in code reviews, providing constructive feedback and fostering a culture of continuous improvement.

#### Frontend Engineer | January 2023 – April 2023 | Alecio

- Led the implementation of responsive and accessible user interfaces, fostering collaborative efforts with UX/UI designers and backend developers.
- Optimized frontend code for peak performance and scalability, leveraging industry best practices and cutting-edge tools such as lazy loading, code splitting, and caching.
- Managed operations within Agile frameworks, navigating stand-up meetings and methodical sprint planning sessions to facilitate the efficient and punctual delivery of software solutions.

#### Machine Learning Intern | June 2022 – September 2022 | Radans Impex

- Contributed to a three-month internship period focused on trending machine learning projects, particularly in the area of Recommendation Systems.
- Applied machine learning expertise within the AWS cloud environment to address contemporary challenges.
- Collaborated with a diverse team to implement innovative solutions and refine project objectives.

#### Angular Tester Intern | October 2021 – December 2021 | Shah Soft Solutions

- Conducted rigorous evaluation of testing results and prepared comprehensive reports for software testers' review.
- Identified and addressed bugs, actively tracking potential software fixes.
- Executed new testing software systems, following approval processes.
- Contributed as an Angular tester to the Crop Trails project (<https://croptrails.farm/>) using Karma and Jasmine.

#### Full Stack Developer Intern | July 2021 – December 2021 | Kamet

- Played a pivotal role in the complete software development lifecycle, from requirement gathering to prototyping, within an agile development environment.
- Developed front-end components using Ionic 5 and Angular, while crafting back-end solutions in Node.js.
- Contributed to the creation of a robust database structure using MySQL.

### EDUCATION

- **Shri Vaishnav Institute of Technology and Science**, Indore, Madhya Pradesh, B.tech, Computer Science and Engineering  
2019 – 2023 || Aggregate CGPA: 8.485
- **Vivekanand Vidya Vihar**, Chandrawati ganj, Sanwer, Indore — XII<sup>th</sup>  
2017 – 2018 || Aggregate Percentage: 79.20%
- **Vivekanand Vidya Vihar**, Chandrawati ganj, Sanwer, Indore — X<sup>th</sup>  
2015 – 2016 || Aggregate Percentage: 84.50%

Chandrawati Ganj  
Sanwer, Indore (M.P.) | 453551

### PROFILES

- [LinkedIn](#)
- [GitHub](#)
- [Portfolio](#)

### SKILLS

#### Languages

- C++
- Python
- JavaScript
- TypeScript

#### Frameworks / Libraries / Others

- Angular
- React
- NextJs
- Node.js
- Ionic5
- Git / GitHub / GitLab
- Web socket

#### Databases

- MySQL
- MongoDB

#### Cloud

- Google Cloud Platform

### CERTIFICATIONS

- **Introduction to Algorithm and Analysis | NPTEL IIT Kharagpur**  
Sep 2020 – Dec 2020  
Aggregate: 84.0 / 100.0
- **Design and Analysis of Algorithms | NPTEL IIT Madras**  
Sep 2020 – Dec 2020  
Aggregate: 64.0 / 100.0
- **Namaste Frontend System Design**

### PROJECTS

- [DevConnector \(Web\) | \(Android\)](#)
- [Cp-Dashboard](#)
- [Doubt Master](#)
- [Whatsapp Chat Analyser](#)
- [Github Finder](#)

### HACKATHON / EVENTS

- **Computer Society of India – Member**
- **Hactoberfest 2021 / 2022 – Open-source contribution**
- **Learn to Earn 2021**
- **30 days of google cloud 2021**
