CAREER OBJECTIVE

To secure a responsible career opportunity with a reputable company having a high-level professional environment where I can utilize my skills to the maximum.

EXPERIENCE

Full Stack Developer Intern | July 2021 – December 2021 | Kamet

6 months of experience as a full stack developer (**Angular, Node JS and MySQL**) in Kamet along with my college studies. During these 6 months I went through a complete software development lifecycle from requirement gathering to prototyping, agile development.

- Creates front-end using Ionic 5 and Angular framework
- Wrote the back-end code in Node JS.
- Created database structure using the MySQL database.

Angular Tester Intern | October 2021 – December 2021 | Shah Soft Solutions

2 months of experience as an angular tester (**Karma, Jasmine**). During this period, I contributed to **Crop Trails** (<https://croptrails.farm/>) project.

- Evaluated testing results and prepared reports for software testers to review
- Locating bugs and tracking potential software fixes;
- Executing new testing software systems after receiving approvals from testers

Machine Learning Intern | June 2022 – September 2022 | Radans Impex

3 months of internship period in which I have to work on trending machine learning projects (Recommendation System).

- Works on embedding machine learning in AWS cloud

Frontend Engineer | January 2023 – April 2023 | Alectio

I had the opportunity to work on a dynamic team of developers. I gained valuable experience in utilizing technologies, collaborating with cross-functional teams, and delivering software using Agile methodologies

- Implemented responsive and accessible user interfaces.
- Collaborated with UX/UI designers and backend developers to integrate frontend features with backend APIs.
- Optimized performance and scalability of frontend code by using best practices and tools such as lazy loading, code splitting, and caching.

Software Developer-1 | June 2023 – Present | SimplrOps

As a Software Developer, I contribute to innovative platforms, delivering efficient solutions using the MEAN stack. Dedicated to providing exceptional value, I thrive in a collaborative environment, leveraging expertise to drive project success.

- I Developed responsive and accessible user interfaces that aligned with design specifications and effectively addressed user requirements.
- Leveraged tools such as lazy loading, code splitting, and caching to enhance performance and user experience.
- Followed Agile methodologies, including regular stand-up meetings and sprint planning sessions, to ensure efficient and iterative software delivery.

EDUCATION

- **Shri Vaishnav Institute of Technology and Science**, Indore, Madhya Pradesh, B.tech, Computer Science and Engineering
2019 – 2023 || Aggregate CGPA: 8.485
- **Vivekanand Vidya Vihar**, Chandrawati ganj, Sanwer, Indore — XIIth
2017 – 2018 || Aggregate Percentage: 79.20%
- **Vivekanand Vidya Vihar**, Chandrawati ganj, Sanwer, Indore — Xth
2015 – 2016 || Aggregate Percentage: 84.50%

- [Codechef](#)
- [Portfolio](#)

SKILLS

Languages

- C++
- Python
- JavaScript

Frameworks / Libraries / Others

- Angular
- React (Beginner)
- NumPy
- Pandas
- Machine Learning
- Node.js
- Ionic5
- Git / GitHub

Databases

- MySQL
- MongoDB

Cloud

- Google Cloud Platform

HACKATHON / EVENTS

- **Computer Society of India** – Member
- **Hactoberfest 2021 / 2022** – Open-source contribution
- **Learn to Earn 2021**
- **30 days of google cloud 2021**

CERTIFICATIONS

Introduction to Algorithm and Analysis | NPTEL IIT Kharagpur

Sep 2020– Dec 2020

Aggregate: 84.0 / 100.0

Design and Analysis of Algorithms | NPTEL IIT Madras

Sep 2020– Dec 2020

Aggregate: 64.0 / 100.0
