Anshul Sharma

Software Developer

Indore, Madhya Pradesh, India
(+91) 8878677076
lekhrajsharmaas@gmail.com

SUMMARY

Full stack software developer with 3 years of experience in both front-end and back-end technologies. Led the development of a high-traffic web application, improving user interaction and satisfaction. Demonstrated expertise in optimizing code to increase performance.

EXPERIENCE

Associate Software Engineer | January 2025 – Present | Deloitte USI

- Engineered enterprise-grade web applications for large-scale clients, ensuring scalability, security, and compliance with industry standards.
- Collaborated with cross-functional teams, including UX designers, backend engineers, and accessibility specialists, to deliver polished user experiences.
- Integrated advanced performance optimization techniques, such as lazy loading and caching, reducing load times for data-heavy applications.

Software Developer-1 | June 2023 – January 2025 | SimplrOps

- Led the end-to-end development of user interfaces, ensuring alignment with design specifications and business requirements.
- Migrated Angular applications from version 12 to the latest stable version, improving maintainability and leveraging modern framework features.
- Implemented Agile methodologies, leading stand-up meetings and detailed sprint planning sessions to ensure the iterative delivery of high-quality software solutions.
- Actively participated in code reviews, providing constructive feedback and fostering a culture of continuous improvement.

Frontend Engineer | January 2023 – April 2023 | Alectio

- Led the implementation of responsive and accessible user interfaces, fostering collaborative efforts with UX/UI designers and backend developers.
- Optimized frontend code for peak performance and scalability, leveraging industry best practices and cutting-edge tools such as lazy loading, code splitting, and caching.
- Managed operations within Agile frameworks, leading stand-up meetings and methodical sprint planning sessions to ensure the efficient and timely delivery.

Machine Learning Intern | June 2022 – September 2022 | Radans Impex

- Contributed to a three-month internship period focused on trending machine learning projects, particularly in the area of Recommendation Systems.
- Applied machine learning expertise within the AWS cloud environment to address contemporary challenges.
- Collaborated with a diverse team to implement innovative solutions.

Angular Tester Intern | October 2021 - December 2021 | Shah Soft Solutions

- Conducted rigorous evaluation of testing results and prepared comprehensive reports for software testers' review.
- Identified and addressed bugs, actively tracking potential software fixes.
- Executed new testing software systems, following approval processes.
- Contributed as an Angular tester to the Crop Trails project (https://croptrails.farm/) using Karma and Jasmine.

Full Stack Developer Intern | July 2021 - December 2021 | Kamet

- Played a pivotal role in the complete software development lifecycle, from requirement gathering to prototyping, within an agile development environment.
- Developed front-end components using Ionic 5 and Angular, while crafting back-end solutions in Node.js.
- Contributed to the creation of a robust database structure using MySQL.

EDUCATION

- **Shri Vaishnav Institute of Technology and Science,** Indore
  B.tech, Computer Science and Engineering || 2019 - 2023

- **Vivekanand Vidya Vihar,** Chandrawati ganj, Sanwer, Indore
  XII th || 2017 - 2018

PROFILES

- linkedin.com/in/als1510
- github.com/als1510
- Portfolio

SKILLS

Languages

- C++
- Python
- JavaScript
- TypeScript

Frameworks / Libraries / Others

- Angular
- React
- NextJs
- Node.js
- Ionic5
- Git / GitHub / GitLab
- Web socket

Databases

- MySQL
- MongoDB

Cloud

- Google Cloud Platform

CERTIFICATIONS

- **Introduction to Algorithm and Analysis | NPTEL IIT Kharagpur**
  Sep 2020- Dec 2020
  Aggregate: 84.0 / 100.0

- **Design and Analysis of Algorithms | NPTEL IIT Madras**
  Sep 2020- Dec 2020
  Aggregate: 64.0 / 100.0

- **Namaste Frontend System Design**

PROJECTS

- DevConnector (Web) | (Android)
- Cp-Dashboard
- Doubt Master
- Whatsapp Chat Analyser
- Github Finder

HACKATHON / EVENTS

- **Computer Society of India –** Member
- **Hactoberfest 2021 / 2022 –** Open-source contribution
- **Learn to Earn 2021**
- **30 days of google cloud 2021**
