ANSHUL SHARMA

Indore, Madhya Pradesh, India (+91)8878677076 lekhrajsharmaas@gmail.com linkedin.com/in/als1510 Portfolio

SUMMARY

Full Stack Developer with 3+ years of experience, specializing in frontend development using Angular, React, and TypeScript. Skilled in building responsive UIs, optimizing performance, and collaborating across the full software lifecycle.

EXPERIENCE

Software Engineer - 1 | January 2025 – Present (Pune, India) **Deloitte USI**
- Developed enterprise-grade web applications with focus on scalability and security.
- Worked cross-functionally with UX, backend, and QA teams to deliver polished user experiences.
- Implement lazy loading, caching, and code optimization techniques, significantly improving load times.

Software Developer | June 2023 – January 2025 (Remote) **SimplrOps(acquired by Deloitte USI in Jan 2025)**
- Led UI development for core product features aligned with business goals.
- Migrated Angular projects from v12 to the latest version, enhancing maintainability.
- Facilitated Agile ceremonies and mentored peers through code reviews.

Frontend Engineer | January 2023 – May 2023 (Remote) **Alectio**
- Built responsive and accessible UIs using Angular.
- Applied performance techniques including code splitting and smart caching.
- Actively contributed to Agile planning and daily scrums.

Machine Learning Intern | June 2022 – September 2022 (Remote) **Radans Impex**
- Developed recommendation systems using AWS infrastructure.
- Collaborated on experimental ML solutions in a fast-paced team environment.

Angular Developer Intern | October 2021 – December 2021 (Remote) **Shah Soft Solutions**
- Wrote and maintained unit/integration tests with Karma & Jasmine for CropTrails platform.
- Documented bugs and test cases, aiding in release readiness.

Full Stack Developer Intern | July 2021 – December 2021 (Remote) **Kamet**
- Developed features using Angular, Ionic 5, Node.js, and MySQL in an Agile team.
- Contributed to backend APIs and front-end modules from scratch.

CERTIFICATIONS

- **Introduction to Algorithm and Analysis** – NPTEL, IIT Kharagpur | Score: 84/100
- **Design and Analysis of Algorithms** – NPTEL, IIT Kharagpur | Score: 84/100
- **Namaste Frontend System Design**

PROJECTS

- **DevConnector** – Social networking application for developers [Live]
- **Cp-Dashboard** – Progress tracker for competitive programmers [Live]
- **WhatsApp Chat Analyzer** – Chat data visualization tool [Live]
- **Tech Care** – Dashboard for managing patients [Live]
- **ShopMe** – Ecommerce web application for online shopping[Live]

EDUCATION

Bachelors of Technology, Computer Science and Engineering **2019 - 2023**
Shri Vaishnav Institute of Technology and Science, Indore, 8.4 CGPA

SKILLS

Languages: JavaScript, TypeScript, C++
Frontend: Angular, React, Next.js, Ionic 5
Backend: Node.js, Express.js
Databases: MySQL, MongoDB
Dev Tools: Git, GitHub, GitLab, Web Sockets
Other: Jest, Jasmine, Karma, Agile, Responsive Design, REST APIs, Performance Optimization
